

TENDANCE

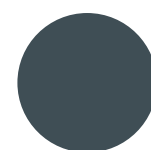

"Le simplicité est la sophistication suprême" — Léonard de Vinci

GAMME TENDANCE QUALITÉ ET PRIX

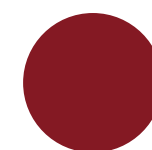

Limitée à l'essentiel et concentrée sur la fonctionnalité, la conception de cette gamme respecte les objectifs économiques

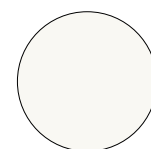

Toujours assemblé sur le principe du tenon/mortaise ; plein, ajouré ou mixte, lames étroites ou larges, verticales ou horizontales, les remplissages permettent d'ajuster le degré d'intimité.

L'aluminium : matériau recyclable

En effet il est 100% recyclable, infiniment, sans perte de ses qualités physico-chimiques.

Durabilité et assemblage

L'assemblage de nos portails est réalisé par emboîtement des profils sur 62 mm pour les portails battants et 12 mm pour les coulissants afin d'obtenir une résistance maximale. L'ensemble est vissé par des vis inox.

Structure et design

Les profils constitutifs de nos portails sont de forte section, ce qui confère : solidité et esthétique.

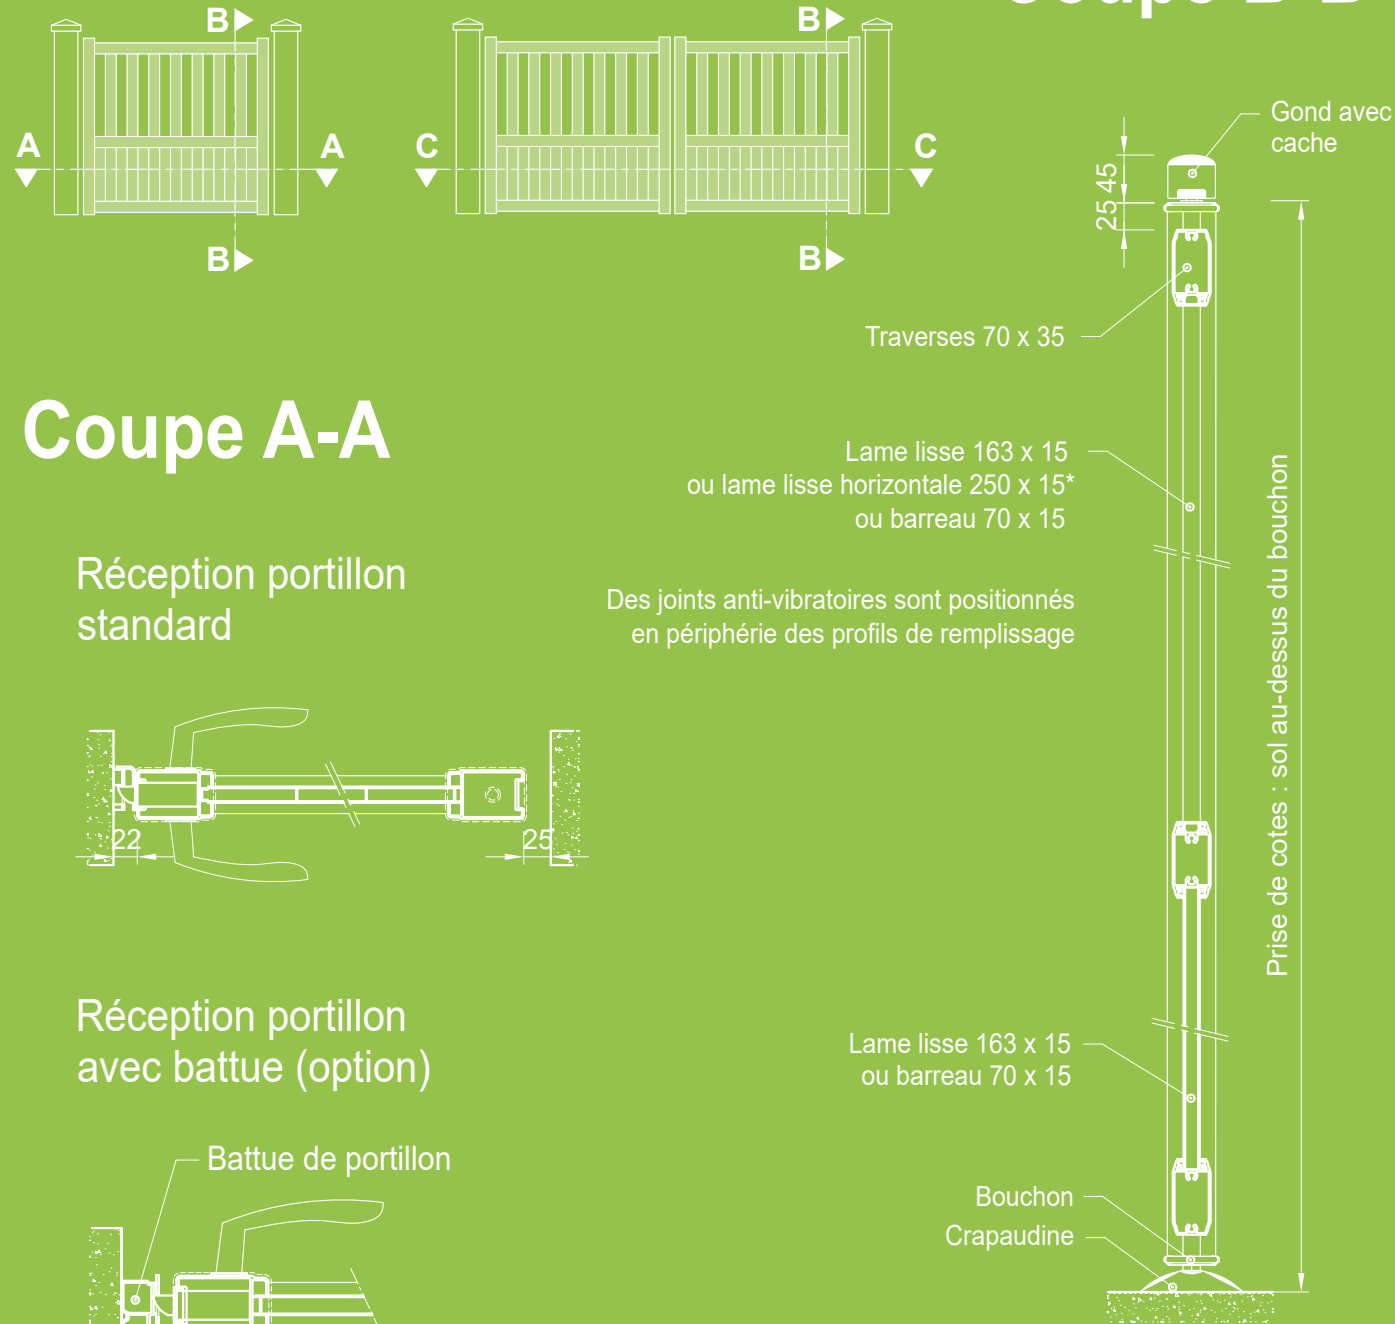

DIMENSIONS PORTAILS TENDANCE

	BATTANTS	COULISSANTS
Montant	70 x 45 mm	70 x 35 mm
Traverse haute	70 x 35 mm	70 x 79 mm
Traverse intermédiaire	70 x 35 mm	70 x 26 mm
Traverse basse	70 x 35 mm	70 x 45 mm
Barreau	70 x 15 mm	70 x 15 mm
Remplissage	163 x 15 mm	163 x 15 mm
Remplissage ÉPURE	250 x 15 mm	250 x 15 mm

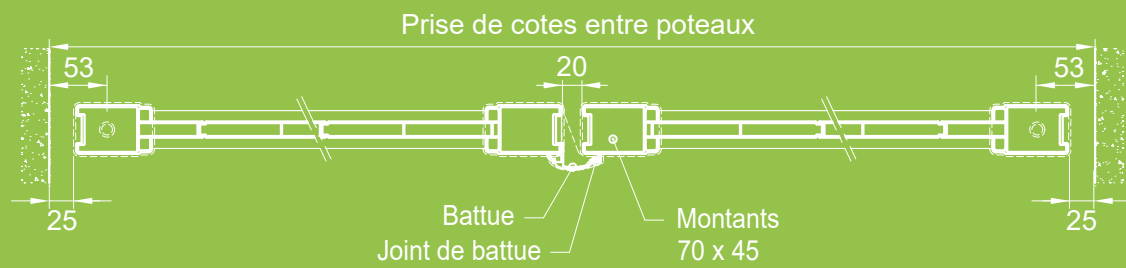

Nos thermolaquages (projection de poudre à haute pression sur les profils aluminium, puis cuisson au four) sont garantis 25 ans et bénéficient du label QUALICOAT et QUALICOAT SEASIDE.
